Table of Contents

Abstract

Chapter 1. Introduction

Chapter 2. Literature Review

Chapter 3. Problem Definition and Objectives

- Problem Definition (Statement)
- Objectives
- Scope
- Feasibility study

Chapter 4. Proposed Methodology (Neatly drawn block diagram is
 expected) Facilities required for proposed work

Chapter 5. Summary

word)

References

Guidelines for the preparation of Synopsis Report

Page 3 of 5

Abstract (should not be more than 250 to 450

It is the summary of the research work. The main parameters of the abstract are: what, how, and why. What: It includes definition of the research work means what is going on in research work. How: It covers methodology part means define a technique/ methodology that help to execute your research work. Why: It focus application of the research work means where it can use.

Introduction (1 page)

The introduction part will include the brief introduction about the project to be developed, technology used, field of project (if specialized one), any special technical terms about the

project. **Rationale:** Justification, why needed? (1-2 paragraph)

Literature Review: (reviews of at least 4-5 reputed publications papers/journals/articles/techniques/wares/etc. - 1 page)

Literature Review

Sr. No.	Author/Title/Year	Work done/Algorithm/Concept/Idea presented in the paper	Remarks

Summarize your findings: (Mostly gaps with respect to your literature study)

Objectives: [least out 3-4 objectives]

Scope: The scope of a project defines the boundaries of its application. [one paragraph] **Feasibility Study:** (should not exceed 1 page)

This will describe the very first step of software engineering i.e. feasibility study of the project that include the feasibility, need and significance of the project

Page 4 of 5

Methodology/ Planning of work (should not exceed 1 page)

Methods, Algorithm and tools of data collection / analysis. Methodology will include the steps to be followed to achieve the objective of the project during the project development. (System architecture/ block diagram)

Facilities required for proposed work (1 paragraph)

Software/Hardware required for the development of the project.

References [IEEE format]

Here specify the description of the study material referred for the development of project.

Formatting Guidelines for the Synopsis Report

- Use below given format for the report
 - Font name: Times New Roman
 - Chapter Heading: 18pts
 - Subheading: 16pts
 - Text: 12pts
 - Line spacing: 1.5pts
- Align(Justify) all text to both left and right margins
- In footer Add page number at the center of page
- Every chapter will start from new page.
- Chapter name should be center justified
- Citations are necessary
- Report of Plagiarism check
